### SIDE CAR DUCT SIDE PANEL

PART NUMBER	FITS RFM SERIES CABINET SIZE	FITS ONTO P/N
RFM-3683-4-SCD	36.00"D x 83.00"H	RFM-3683-SCD
RFM-4283-4-SCD	42.00"D x 83.00"H	RFM-4283-SCD
RFM-4883-4-SCD	48.00"D x 83.00"H	RFM-4883-SCD

### Side Car Duct Features:

- 6" Width Duct designed for use with equipment that requires cooling and exhaust air flow from side to side
- Segregates hot exhaust from cold air supply
- When deployed in hot aisle/cold aisle environments the duct directs intake air to come from the front of the cabinet and exhaust out the rear of the cabinet
- When used with chimney cabinets rear perforated panels are replaced with solid ones. Intake air is directed from the front of the cabinet and exhaust is directed out the top of the cabinet
- Cable access openings provided in the top and base
- Heavy gauge steel
- All welded construction
- 2 Perforated front /rear panels standard
- Solid rear panels available for use with chimney cabinets
- Optional lockable lift off side panels
- c/w adjustable levelling feet
- Powder coated textured black finish
- Custom colours and sizes available on request
- When deployed in rows, 1 side duct serves as an intake for one cabinet and exhaust for the neighbouring cabinet

### SIDE CAR DUCT DEFLECTOR SHELF

PART NUMBER	FITS WITH SIDE CAR DUCT	FITS WITH CABINET
RFM-636-SCDS	RFM-3683-SCD	RFM-303683 / RFM-243683
RFM-642-SCDS	RFM-4283-SCD	RFM-304283 / RFM-244283
